Offering iQTS to your staff is a great way to demonstrate your commitment to their professional development. The iQTS programme is a rigorous initial teacher education programme that supports new teachers to understand and apply key principles from evidence and research in the classroom. It ensures that participants mee 'juou' o which are essential elements of quality teaching:

iQTS Teachers' Standards

A placement in a different school is an opportunity for students to broaden their experience and develop as a professional. Ideally, all students will spend approximately 2-4 weeks in a different school. This requirement may not apply to students who have previous teaching experience in a different school prior to beginning the course.

If it is not possible to arrange a second school placement, students will complete a one-week virtual school shadowing task including video observation and/or remote teaching.

If you have any questions, or would like to speak to a member of the iQTS team, please email <a href="mailto:iQTS@chi.ac.uk">iQTS@chi.ac.uk</a>
